

Various pipes and high tech profiles

- ↗ Weight ranging from 10 grams to 6.000 grams per meter
- ↗ Maximum width of 700 mm
- ↗ Direct integration of holes, stencils and imprints

Machine park:

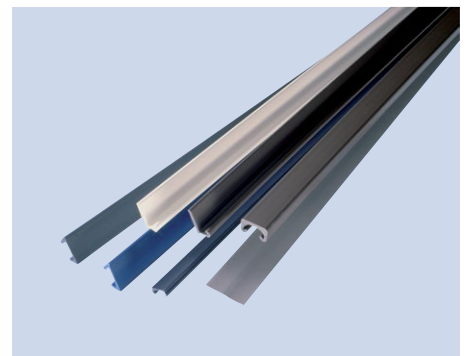

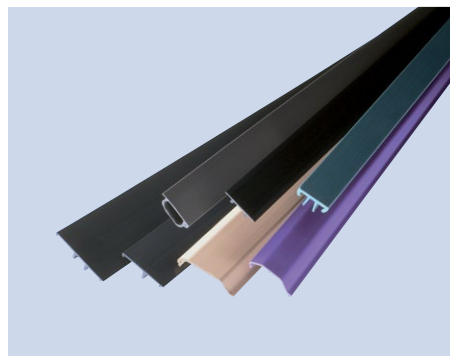

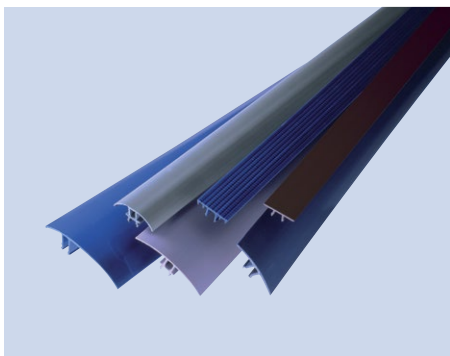

- ↗ Highly automated equipment
- ↗ Equipment regulated by infra-red light
- ↗ Micro-processed temperature regulation system

Identification by:

- ↗ Offset printing
- ↗ Ink jet printing
- ↗ Hot printing

Processing of different aviation authorized thermoplastic materials such as:

For the aviation industry > thermoplastic materials in accordance to FAR 25.853 and ABD0031
